Letter of contract execution-cum-successful completion

Project: Contract for procurement and construction of overhead line for Rima Satellites Small Field

This is to state that **Marmul Falcon Trade & Cont. Co. LLC** have been retained by us as our subcontractor during the period Jun 2009 till Nov 2014 (5+ years) on the above project and have successfully handled, completed and handed over the project **without any LTI** and to the fullest satisfaction of our project team and management.

Their primary scope of work under this contract included:

1. Procurement, supply and construction of 33kV Overhead Lines on both wooden and concrete poles
2. Testing and commissioning
3. Handling of emergency works
4. Replacement of corroded conductor during shutdowns
5. Regular participation in RMPS shutdowns

During the above tenure of contract, they have installed and extended OHL and give power supply to around 135 no. wells.

Further, they are backed by diverse and highly tech-skilled workforce well conversant with use and operation of modern equipment on the installation front, QA/QC professionals on use of testing tools and instruments and HSE specialists with required expertise in OHL installation & maintenance with special emphasis and focus on oil & gas sector.

We are confident that they will prove to be an asset as 'electrical subcontractor' for oilfields OHL-related operations and have no reservations in endorsing / recommending them to any prospective contractor.

We wish them success in all their future endeavours.

(Phoomchai Champanin)
